

Box Card

shared by Susan Legits at Albuquerque Regional 10/22/2011

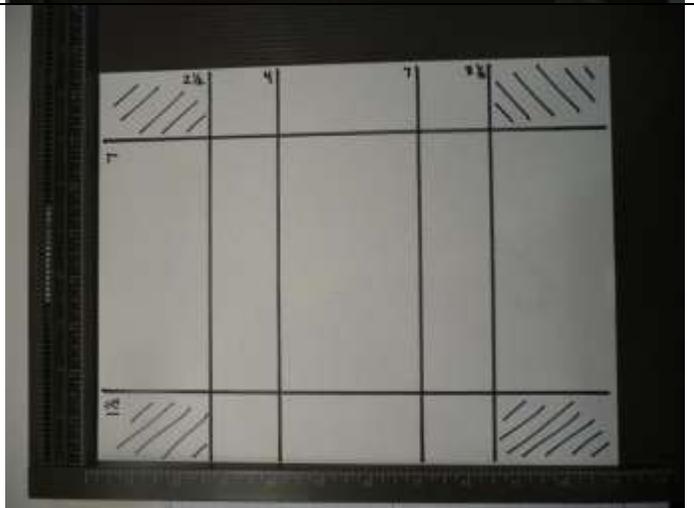

Paper is 8 1/2" x 11"

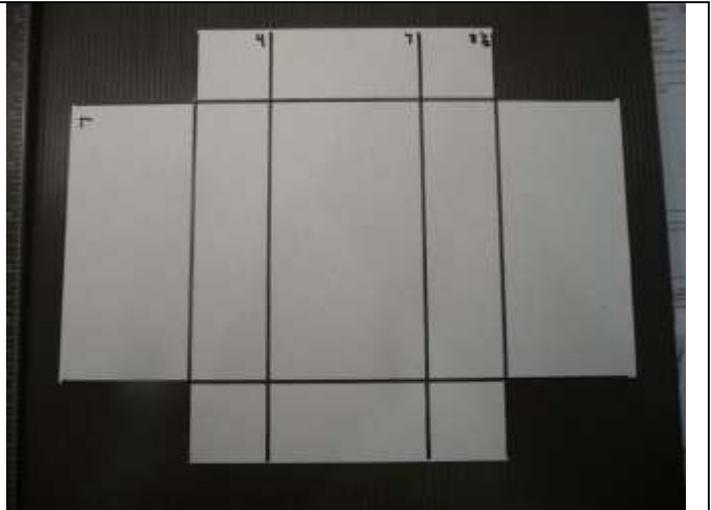

1. On the 11" side score at 2 1/2", 4", 7" 8 1/2"

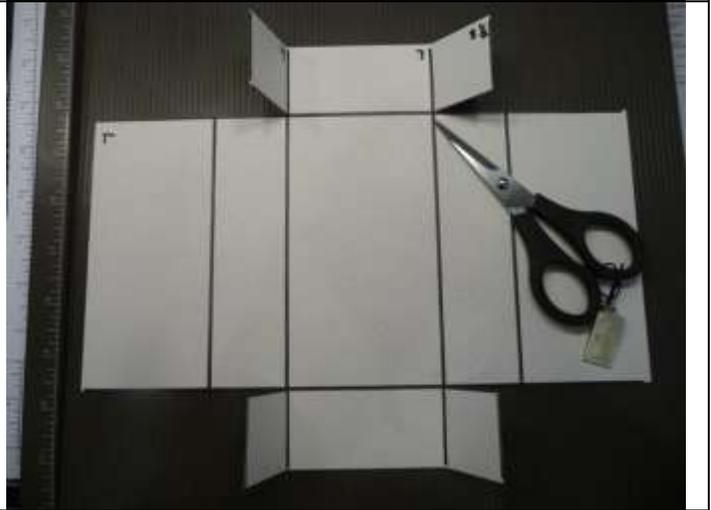

2. On the 8 1/2" side score at 1 1/2" and 7"

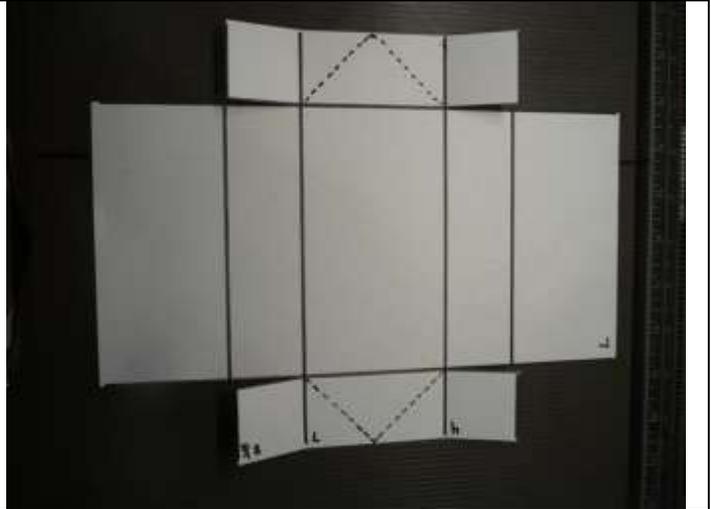

3. Cut and remove the outer rectangle on each corner.

4. Cut on the 1 1/2" score line to the 4" mark and the 7" mark from each side. (This makes the tabs that glue down to form the box.)

5. Make a mark at 5 1/2" on both of the 11" sides. Score a diagonal from that mark to the nearest intersection. (This should be where the 4" intersects with the 1 1/2" score line and the 7" intersects with the 1 1/2" score line). This is where your box folds in to collapse.

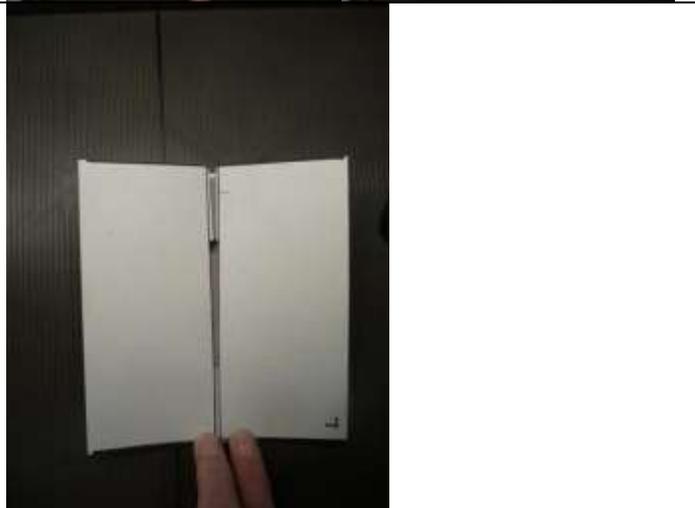

6. Fold well on all score lines. (The ends are shown folded. Fold the inner long straight lines (4" & 7" scores) in towards the box. Fold the outer long straight lines (2 1/2" & 8 1/2" scores) away from the box.

7. Put glue (or sticky strip) on the 4 flaps to make the box.

8. When you are done and the box is folded flat, it will be 1/4" too big on both sides. If you trim off 1/4" off each long edge, it will fit into a Stampin' Up! medium envelope.

The layers you need to stamp on are:

(2) 2-1/8" x 5-1/8" and (1) 2 1/4" x 5 1/4"

Belly band (if desired) is 11" x 1-3/4", layer is 11" x 1-1/2"

Ideas for a box card:

Birthday with candles or crayons, Flowers with a sachet, Winter or snowman with hot chocolate or oatmeal packet, Get well with soup packet or tea, Fall with apple cider packet, Any style with a gift card, Morning Cup stamp set with a coffee or tea packet.
