The organizations that have already updated their sites for 2012, or offer opportunities on an *annual basis* are indicated by a (2012) after the [co-op](#) link. You are welcome to check the details for those organizations that have not, as of yet, updated for 2012 as the

# details for **2012** will likely be similar to that currently given for **2011**.

The co-op/internship positions listed at this website specifically focus on providing opportunities for *minority students and students from underrepresented groups in the sciences and medicine*. If you believe that you qualify, you should definitely explore these exciting opportunities. In addition to the co-ops listed below, quite a few of the organizations that are listed in the much larger list, [Co-op/Internship and Summer Research Opportunities in the Life Sciences](#), are seeking to enhance the ethnic diversity of their programs and thus strongly encourage minority students to apply. You should not hesitate to take advantage of these opportunities as well.

In addition to the valuable experience and good pay that a Co-op or Internship will give you, very **many of the Opportunities listed on this website also provide *Travel Reimbursement, Housing and Meals***. So, don't let concerns about living expenses or the location of an organization posted on this website prevent you from checking out an exciting and challenging Co-op or Internship position!! If travel support, housing and meals are provided, this information will almost always be included in the details about the Co-op or Internship that can be found by clicking on the [co-op](#) website next to the organization's name and location.

## To view information for any organization listed below:

- a. Point and click with your mouse on the [organization's name](#) to go to its [homepage](#) (for a university or college, you might want to go further to the homepage of the sponsoring department or program at that university or college, if it is not already the "homepage" link that is provided here).
- b. Point and click with your mouse on [co-op](#) to go to [co-op/internship/research postings](#) for that organization or to the website from which you can then access the co-op/internship/research postings
