NOTES:

Known Sphere Of Operation: Empire-wide use
 Data Reliability: D
 Major Data Source: Klingon Sector Intelligence
 Triangle Sector Intelligence

A radical departure from usual Klingon designs, the new K - 26 has been encountered only infrequently, leading Starfleet Intelligence to believe that it is not deployed in large numbers. Rumors and intercepted messages lead to the conclusion that the Klingon High Command is not happy with the performance of the K-26 in field trials. Thus, it may never be extensively produced or deployed.
