Notes:

The firewing was the answer to the Federations new ship the Excelsior class ship. The firewing was originally supposed to be used as a heavy Cruiser but, during testing it was better as a Light Cruiser. It was originally going to be used as an escort for the larger ships but when 3 Firewings came up against 6 Klingon D-7 cruisers. In the Triangle 2 of the 3 Firewings were cloaked. The D-7s were in War Game maneuvers and saw the Romulan ships. They thought it would be nice and try to take one back to Central Command. They thought 2 to 1 odds were good. When the battle started they did not realize they were under attack when they found out that there were 2 others. Also what the Klingons did not realize was there were also 2 Whitewinds in the area. By the time the Whitewinds came in to help the Firewings had destroyed 2 D-7s and crippled 1. The rest of the Klingons were running or staying and fight. Those who stayed were either destroyed or captured. The Firewings came out the victor. The Mark I saw some action but when some of the shot comings started to appear, it was time to create a upgrade. The only upgrade was the speed and the shielding. This class saw some action again the Federation. The 3 Mark IIs was on a patrol in the Neutral Zone and then it intercepted a freighter. They had started to attack the freighter. The Freighter called out to near by Federation vessels. 2 Marandas and 2 Lokar Class vessels came to the aid of the ship. the captain thinking that the Firewings were out numbered and over classed they found out the hard way. The Firewing was also joined by three Bright Ones when the freighter captain called out for help. All three Bright ones were destroyed but in the process both Lokar class Vessels were destroyed and 1 of the Marandas were damaged. Of the three Firewings, One was destroyed, one was heavily damaged and had to be abandoned and one was slightly damaged. The Freighter was captured by the Romulans and was found smuggling Romulan Ale. After the incident the Federations was very concerned about he new vessel and tried to get as much information on the ship. Six months later the Federation finally got one and examined it. It had a treasure trove of information on the new ship. Seven months later the Romulan High Command decided to make another improvement with the Mark III. The Mark IIIs only change was the increase in the shielding. It is hoped the vessel will last into the new century.
