

Hundy 500 Gimmick and Explanation:

What you will need:

Six \$5 bills

Six \$1 bills

Spray Adhesive or Rubber Cement

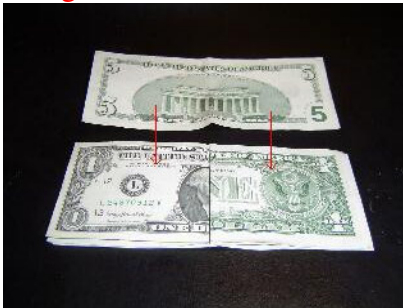

1. Begin by folding two \$1 bills in this fashion.

2. Take a \$5 bill and glue it perfectly flush onto the two \$1 bills. Push the \$1 bills together before gluing.

3. Turn the whole gimmick over and glue a \$5 bill on with back of it facing outward.

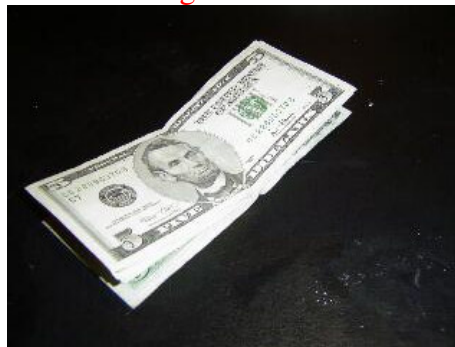

* I have not glued these bills together for this illustration which is why the bills are loose. When you construct the gimmick, make sure the bills are tight together and perfectly squared. The gimmick should look like you are holding only one bill in your hand when finished.

4. Here's what the finished gimmick should look like.

5. Now that the gimmick is created, here's the setup. Open the gimmick and add the \$5's and fold the gimmick over. Then add the \$1's and fold the gimmick.

* Now you can fan the bills out and show both sides...

Now for a brief explanation of the trick, watch the video to see exactly how it's done.

1. Start with the one's facing away from you. You want to count (thumb off) each bill toward you.

2. When you have counted the bills out, the bulk (all the \$5's) will be facing the audience. You need to turn the entire stock over in your hand before showing the bills individually.

3. Now you can thumb each bill off into your right hand and show them individually as 5 one dollar bills. You can even hand a few bills to the spectator(s). When you are done showing the bills, square them and close the packet.

4. Now thumb off one bill into your hand as you are to look at the borders of the \$1's. (See Video For Patter)

5. Reach into the gap and turn the stock forwards retaining the single bill in your hand.

6. Keep spinning the stock over your hand as you square the single \$5 bill and re-grip the packet.

7. If done correctly, you can immediately start thumbing off the \$5's.

8. After thumbing the fives, spin the entire packet like before and show each five individually.

And that's it! Again, watch the video for what to do exactly. Enjoy!
