

## **SAFE- New Hampshire**

**Anyone can be a victim of Domestic Violence!**

A man, a woman, a child, you can be a teen or elderly!

**Anyone can also be abusive!**

You never know for sure, who the victim OR the abuser might be...

**SAFE-New Hampshire is the NH Chapter of Stop Abuse For Everyone.**

We offer services and support to anyone affected by violence in their lives.

We focus in particular on the people who are "underserved" by many other Domestic or Family Violence Programs.

We offer ALL victims and abusers a place to call and someone to listen and offer assistance.

**Domestic Violence does not discriminate so programs that help, should not either.**

We assist everyone, but some of the underserved that we focus on are Men, Lesbians, Gay Men, Transgendered, Bi-sexual and Women who may not find the type of assistance they are looking for that is true to their spirit.

No matter who you are, Love shouldn't hurt! If you are being assaulted or abused in any way, call for help!
