

Annexure

This is a Training & Recruitment model, process is as follows:

- Screening the candidates based on the academic credentials.
- Candidates should attend the Aptitude Test which would be conducted by the client in the month of JAN.2011
- On successfully clearing the written Test, candidates should attend a generic Technical Interview.
- Candidates who clear the Technical interview will get the conditional offer letter from the client & will have to undergo a mandatory Software Testing Skill development training program as informed by the client.
- Training fee is applicable for the candidates, who collect the conditional offer letter from the client.
- After completing the training program & subsequently clearing the Software Testing Technical test conducted by the client, candidate's job offer will be confirmed.
