

Careers at Sampoerna University

<http://www.sampoernauniversity.ac.id>

Sampoerna University's Faculty of Science and Technology aims to provide state-of-the-art STEAM (science, technology, engineering, arts, and mathematics) education for tomorrow's leaders in Indonesia. We have forged academic collaborations with top US universities and work with our industry partners so that our students have ample opportunities for work experience during their university years as well as access to work placement upon their graduation.

We are currently seeking talented and motivated candidates to fulfill the following positions:

1. **Lecturer for Mathematics**
2. **Teaching Assistant for Mathematics**

General Description:

Lecturers will be responsible for high quality teaching and lectureship of mathematics courses at Sampoerna University, including but not limited to algebra, trigonometry, pre-calculus, business mathematics, calculus, linear algebra, differential equations, complex mathematics, graph theory, abstract algebra, and other related courses. Lecturers must provide a successful, meaningful learning experience for students and to perform to the highest standards of the *Tridharma Perguruan Tinggi*. Personal and career development are important, and lecturers are expected to continue developing their own competencies as required, including updating their teaching methods to fit the latest state-of-the-art and best practices of higher education teaching and learning, and keeping up with the latest teaching media and materials.

Teaching assistants will be responsible for assisting lecturers in instructing students and tutoring them on topics covered in their mathematics courses. Responsibilities may include assisting in conducting tutorial sessions for students between and/or after classes, assisting in grading quizzes and exams, and preparing tutorial material for students in mathematics matriculation programs.

General requirements:

- **Lecturers** must possess a **minimum of a Master's degree** in related study program from a reputable university (mathematics, applied mathematics, the sciences, engineering, statistics, economics, and others may be acceptable study programs for candidates for this position).
- **Lecturers** must have demonstrated excellent full or part-time teaching experience at the university level, and possess excellent spoken and written English skills, classroom management skills, and strong communication and presentation skills.
- **Teaching assistants** must possess a **minimum of a Bachelor's degree** in a related field, including mathematics, applied mathematics, the sciences, engineering, statistics, economics, and others).

- **Teaching assistants** must be comfortable working in a classroom setting and assisting/guiding students with mathematics practices, mathematics drills, and mathematics concepts. Experience as teaching assistant for mathematics is preferable.
- **Lecturers and Teaching Assistants** must be willing to have Sampoerna University (Jakarta) as their home base and be able to teach in English.

Selected candidates will receive:

- Salary
- Medical benefit
- Meals

Application:

Interested candidates may apply by sending a CV and cover letter to deddy.kresnoputro@sampoernaschoolssystem.com with the position title in the subject line. Please be prepared to provide academic transcripts and references upon request.

Only short-listed candidates that meet the above qualifications will be notified for further interview.
