Subject: Ethio-France Sandwich PhD Program

Human Resource Development by way of education, training and competence development is considered to be the cornerstone of long-term Science & Technology Capacity Building. Due to expansion of Higher Education Institutions in Ethiopia Lack of properly trained academic staff have been critical constraints to deliver qualified manpower particularly in the area of science and technology where large enrollments are expected. To alleviate this problem, a bigger emphasis has been given for the Academic Staff Profile Development.

Owing to this fact staff capacity development program (such as MSc and PhD Training) in the area of engineering and technology has been given top priority by Ministry of Education. To this end, Ethio-France Sandwich PhD Program Implementation Agreement has been developed and promoted by Engineering Education Capacity Building Program (eecbp) of MoE to implement at 10 Institutes of Technology (iOTs).

With this letter, we declare that the Ethio-France Sandwich PhD Program Implementation Agreement is signed and ready to be used by all iOTs.

Ministry of Education together with Campus France and the Embassy France in Ethiopia are inviting your iOTs' academic staff to apply for Ethio-France Sandwich PhD Scholarship

Program. Together with the application form duly filled, the applicant has to submit the below listed documents:

- Current CV
- Copies of academic degrees (BSc and MSc) and transcript (Student copy)
- Abstract of research proposal and detailed time table (not more than 8 pages) signed by the applicant and the Ethiopian supervisor
- Motivation letter

The final selection of scholarship holders will be carried out under the good judgment of MoE and Campus France.

Please be advised to nominate 1 selected and 1 reserve candidates in line with your iOT needs/priority.
