The Student of Color Conference gives the opportunity to all students of color and their allies to be in one place united and to organize in a statewide setting. Through educating and empowering students of color and their allies, we hope to give students the tools to organize and mobilize their communities around the institutionalized oppressions that students of color face. In an effort to create community consciousness and unity between our cultures, we will provide a safe space where race, gender, class, sexuality, nationality and disability will be actively discussed. In order to achieve these goals and to ensure that as many students of color are represented, it is crucial to have a strong delegation from each campus that is representative of all communities of color and background as possible. The theme of this year's conference is Building Our Leaders with Purpose: Activism, Wellness and Reclaiming Education. We are proposing that SOCC focus on the aspects of activism, wellness, and reclaiming our education, so that our students may continue to work toward change in our communities.

1. Why are you interested in attending the Student of Color Conference?

2. Are you involved in any student organizations or clubs on campus and do you hold any leadership positions in any of these associations?

4. Do you have any special skills or other qualifications that would make you a good candidate for the Student of Color Conference?

5. A strong delegation is one that is composed of diverse individuals. These individuals need not only grow from the experience but also be able to bring back what they learned and share that knowledge with their communities. How do you plan on bringing back what you experienced and implementing that into our campus?
