To Help Parents Navigate the Process; Students Are Encouraged to Attend

- * How has the admissions process changed since you were a student?
- * What courses should your child be taking now to prepare for a competitive college?
- * What do admissions officers consider besides academics?
- * How should your child prepare for the SAT and ACT? How important are these scores?
- * How do you help your child narrow down the list and choose the "best fit" colleges?
- * How have population trends impacted the admissions standards?
- * How has the financial aid process changed in recent years?
- * How has the Internet impacted the admissions application process?

The 15th college admissions presentation is sponsored by
the Montgomery County Council of PTAs and
