

FIRE NSBE JR

In Association with the Greenbelt Space Professional Chapter

**Kickoff Meeting: Saturday Sept. 15 at 10:00am
at the**

CMIT North High School

14800 Sweitzer Lane Laurel, MD 20707

Competitions to Increase Youth STEM Engagement

The Future Innovative Rising Engineers (FIRE) Chapter of NSBE was established in 2008 in the response for the call to engage more youth in science, technology, engineering, and mathematics (STEM) fields. Our organization gives Middle and High School students the unique opportunity to participate in STEM competitions, develop technical capabilities, engage professional engineers, and improve soft skills like teamwork, focus, organization, written and verbal communication, time management and leadership. Plus, we have fun!
