

# MULTIMEDIA DESIGN TRAINING

**One year programme on art and design for enabling employment and sustainability for individuals with Autism Spectrum Disorders and other Intellectual and Developmental Disabilities**

## Objective

Prayas lab aims to enable and engage students to use their abilities and talents to become self-reliant. This program with a new kind of vocational curriculum is aimed at obtaining and retaining employment opportunities. By nurturing their strengths and matching their interests to specific careers, a student can make a contribution to their chosen field and society. This course will introduce you to the discipline of art, design with a well-rounded understanding of theories, methods and channels of multimedia. It'll encourage you to think deeply, critically, and coherently to freely express creatively.

With the exposure of painters, cartoonists, sculptors, illustrators, filmmakers, animators and their styles and form of visually communicating, you will delve into the realm of your imagination. In the process, you'll learn to share and present work, get feedback as well as collaborate with others. This will help you establish and identify an artistic unique skill and area of expertise.

Do join us to understand our innovative methods of unfolding and harnessing potentials of individuals with special needs!
