

HOME VISIT REPORT

Date of visit: 06 APR 2018 Day of the week: Friday Time: 4:30

Applicant: Cheryl Jones

Address: 105 Ridge Court

City, State, Zip: Swansboro, NC 28584

Phone(s): (252) 241-3933

1. Describe the street: Busy ☐ Quiet ☒ In Between ☐
2. Describe the setting: Rural ☒ Suburban ☐ Urban ☐
3. Is there a yard: Yes ☒ No ☐
4. Is the yard fenced: Yes, fully ☐ Yes, Partially ☒ No ☐

If fenced, describe the fence (height, type, condition): back yard has partial left privacy fence and partial 5ft. wire fence. I couldn't see any open areas or gaps, but there was a lot of brush around the perimeter so I couldn't see for sure.

Is the yard generally safe, with no objects on which the dog could get hurt?

Large chicken coupe separated by wire fence in back corner of yard. The yard was cluttered but I didn't see anything dangerous

Is there a pool or pond? Yes ☐ No ☒ If so, can the dog get into it?

front yard not fenced, they only access front yard on leash

5. Describe the condition of the home, for example, in good repair, clean, neat. Are there small objects, exposed cords, houseplants, etc. that the dog may chew? I didn't see any exposed cords or houseplants, but it was very cluttered. There was a lot of "stuff" everywhere

Are the cleaning materials secured in the cabinets? Per Cheryl, they are all locked in cabinets. I did not see any laying around.

Is the house reasonably neat and clean? Not at all to my standards, but not to the point of being hazardous. It was just very cluttered and crowded.

Where will the dog eat? She feeds them "wet food" inside their crates every morning and there's kibble/water available in the kitchen throughout the day.

6. If there is a basement, will the dog have access to the basement? Describe the basement; for example, in good repair, clean, no debris on the floor, and hazardous substances out of reach of dog.

N/A

7. If there is a garage, will the dog have access to the garage? Describe the garage; for example, in good repair, clean, no debris on the floor, and hazardous substances out of reach of the dog.

N/A

8. Describe the behavior of adults among themselves, and to any other pets or children - respectful, hectic, loud, quiet, commanding, calm. Husband - ϕ home

Christopher (22 yr. old) - ϕ home

Jeffrey (26 yr old) - respectful - left after few min. to go outside

9. Describe behavior of children in relation to adults, to other children and to any pets.

? only 2 of the dogs were present and they were not friendly. Cheryl held them + CC growled when I tried to interact.

10. Describe the behavior/energy of the pets in the home. How did the pets engage with you as a visitor? If multiple pets, how did the different animals interact with each other?

CC + Yorkie mix were the only ones present and they were not friendly to me. Cheryl said she keeps the large dogs separate from small dogs

11. Any special needs, unusual circumstances or concerns that we should consider? "just in case"

The older Chi (not present) apparently had a major seizure/stroke after wearing a flea shirt (?) w/ chemicals infused

12. Based on your overall impression, would you recommend this home for adoption?

☒ no, because:

☐ yes ☐ yes, but with the following reservations:

House/yard was extremely cluttered for a blind dog. Could not meet all household members/animals because they weren't home. I felt uneasy that she made excuses why the other people/dogs weren't present and I felt uneasy about her keeping the dogs "separate" from each other

13. Comments:

I feel this household is too "busy" for a small dog w/ special needs.
