EDUCATION SYSTEM IN ROMANIA						

OVERVIEW ON THE NATIONAL HIGHER EDUCATION SYSTEM

Admission to higher education is based on the baccalaureate diploma (**diploma de bacalaureat**).

The European Credit Transfer Systems (ECTS) is used in all the accredited Romanian universities.

The graduation diploma (**diploma de absolvire**) is awarded after graduation from the short-term higher education (180 ECTS) and after final examinations are passed. After graduating the long-term higher education and passing the final examinations, graduates may obtain: the engineer's degree diploma (**diploma de inginer**) (300 ECTS), the architecture diploma (**diploma de arhitect**) (360 ECTS), the city planner diploma (**diploma de urbanist**) or the BA / BSc diploma (**diploma de licență**) in all the other fields (240-360 ECTS).

University programmes for distance learning may be organized for the authorized and accredited specializations.

In Romania, the higher education system is open: the students graduating from short-term higher education can continue their duration of 2 to 3 semesters (60-90 ECTS). Comprehensive studies are completed by a dissertation, the graduates receiving a comprehensive studies diploma (**diploma de studii aprofundate**).

The **master's degree studies** last for 3 or 4 semesters (90-120 ECTS) and are performed either in the field of the BA/BSc diploma (**diploma de licență**) or in other fields of studies. The **master's degree studies** are completed by a dissertation and the graduate receives an MA/MSc diploma (**diploma de master**).

The PhD studies are finalized by a research thesis and graduates are awarded the PhD diploma (**diploma de doctor**).

The **academic post graduate studies** are organized independently and include training programmes, which last 2 to 4 semesters. Their aim is to complete the studies certified by the long-term higher education diploma. The studies are finalized by a dissertation. The graduates receive a post graduate academic studies diploma (**diploma de studii academice postuniversitare**).

Post graduate specialization studies can be attended by the graduates who have obtained a diploma after long-term higher education. The duration, curriculum and completion of these studies are approved by the university senates. The graduates receive the post graduate specialization studies diploma (**diploma de studii postuniversitare de specializare**).

The universities also offer life-long training programmes according to the market demand and the needs for professional reconversion.

In the field of health, specific programmes are provided for doctors to obtain the specialist certificate which is issued by the Ministry of Health.
