Engr. JAYDRICK A. YAP	-	VP Mindanao
Engr. FRANCISCO OLPINDO III	-	VP Middle East
Dr. EDUARDO P. MALAGAPO	-	VP Foreign Affairs

FROM : The National President

SUBJECT : **ISSUANCE OF NEW PSME MEMBERSHIP ID Card with RFID**

Dear Chapter Presidents,

Please be informed that in lieu of the present PSME membership ID cards, we shall be issuing soon a new PSME Membership Identification Card with Radio Frequency Identification (RFID) to all active members.

The RFID is a contactless proximity card that uses electromagnetic fields to automatically identify and track the electronically stored information of a person like the MRT Card or the ETC Card in tollways. Compared with the present manual system, the RFID is a method of automatic identification and data capture that PSME intends to eventually use in all member transactions with the office, in trainings and other activities.

How will the new PSME ID Card with RFID benefit the members?

With the new ID Card, transaction during conferences and convention will be much faster compared to other systems as the members will only need to tap the ID to the RFID Reader just like in MRT. Software applications will also be developed to capture and store members' information online. Back office processing of the PSME National will also speed-up and be more accurate.

At this point in time, the office has already placed an order for the ID cards with RFID, and the RFID reader machines, and is just waiting for these items to be released by our supplier. As soon as everything is set-up, we shall use the RFID technology in member transactions. A new circular will then be issued for the proper guidance of everyone.

For dissemination to your members. Thank you.

Yours in service,

Dr. JEFFREY F. SINGSON
National President
