Subject: INVITATION TO THE 63RD PSME NATIONAL CONVENTION

Dear Fellow Mechanical Engineer:

The **63rd National Convention (NATCON)** of the **Philippine Society of Mechanical Engineers** will be held on **October 21 to 24, 2015** at the SMX Convention Center, Pasay City with the theme: **"Towards Globally Recognized Filipino Mechanical Engineers"**.

The ASEAN Integration has already started. We now face global competition in our engineering practice. This year, it is no longer a question of how prepared we are for this global competition, but a question of how long can we stay competitive in the field, how we can excel in our profession, and how we can be globally recognized Filipino mechanical engineers.

These challenges are taking toll in each of us, Filipino mechanical engineers, and in our organization, the PSME. We have to work together to ensure we are abreast of the changes in the engineering industry. PSME, on its end, shall continue to provide opportunities to ensure that its members will acquire the necessary knowledge and skills to compete, to remain competitive, and even to excel.

The 63rd NatCon is one of the opportunities that PSME is providing to its members. You will get a fair return for your money since we have lined up series of activities such as technical seminars, machinery and technology exhibits, and plenary talks, all towards achieving the very theme of the NatCon. There are other light activities such as sports, team building, awards, business meetings, and others, geared towards achieving wholistic and quality life of the mechanical engineers, and strengthening the PSME.
