**Subject:** Invitation to the 64<sup>th</sup> PSME National Convention

Dear Fellow Mechanical Engineer:

Greetings from your servant leaders of your Society!

We would like to invite you in our **64<sup>th</sup> National Convention and Philippine Mechanical Equipment and Systems Exhibition (PHILMEX)** at SMX Convention Center, Pasay City from **October 5 to 8, 2016** with the theme **“Challenges and Opportunities to Globalization and Cross Bordering”**.

From our past National Conventions, we have been providing updates on the new technologies and systems to our field of practices, upliftment and guidance to our profession and humble service that we can give to you.

As we continue to be known as an ASEAN Registered Engineer, ACPER Engineer and APEC Engineer, we also face challenges and opportunities in making it into reality. Challenges and opportunities that you would need to be abreast of the changes in engineering and technology; you would need to acquire a wide body of new knowledge and skills to adapt to those changes; and, you would need to fast track developing the resources to enable you to apply such knowledge and skills.

Our previous national conventions were attended by more than 2,000 mechanical engineer-delegates, over 100 Exhibitors, dozens of technical presenters and a host of plenary speakers, not to mention the more than 2,000 students from 85 engineering schools nationwide who came to the PSME Mechanical Engineering Students Conference.

This Convention exactly helps you get over the hurdles mentioned above. For you the delegates to get value for money, we have lined up exciting programs such as technical seminars, mechanical equipment and systems exhibits, and plenary talks all related to the theme. Engineering Curriculum Enhancement, ASEAN, ACPE & APEC Engineer Registry, Continuing Professional Development (CPD), Mechanical Engineering practice, Green Technology, Environmental Management, Energy Conservation, among others, will be discussed at length.
